

## Product Overview

The IPV72H by TransTel is a compact and fashionable SIP phone that comes equipped with new and improved features, including two SIP lines, ten speed dial keys, a high-definition speaker on the handset, and one programmable DSS key. The phone supports both desktop and wall-mounted modes, allowing it to be used in a variety of settings such as schools, hospitals, supermarkets, and residences. In addition, the IPV72H can be powered through either PoE or a charging mode. Its wall-mount capability makes it a great choice for those looking to save desk space.
